

SEWER WORK IN YOUR AREA

Project update: upcoming night work near Summerfield Place, Kingfisher Park and Gem Road, Kenmore

What's happening?

Downer WSP and their subcontractors, have commenced **essential works to repair and upgrade the sewer pipe near Gem Road, Kenmore**. In addition to day work, we'll soon undertake night work to connections to the sewer pipe and associated network diversions.

Work hours – construction will take place over **two consecutive days/nights**, between:

- **6am Tuesday 10 August 2021 – 6pm Wednesday 11 August 2021**
- **6am Tuesday 17 August 2021 – 6pm Wednesday 18 August 2021**

Construction has been scheduled after-hours due to low flow conditions at night. This work may be rescheduled to the following night/s in the event of wet weather, site conditions and imminent covid-19 restrictions. Following the completion of night work, crews will revert back to day shift for the remainder of the project.

What can I expect?

- **Night work** with crews, equipment, safety lighting and reversing beepers. Safety barriers will be in place to keep everyone safe.
- **Noise and dust** from construction machinery.
- **Some intermittent odour** may occur when accessing the sewer network.
- **Tanker trucks** positioned on Gem Road, Kenmore adjacent to Kingfisher Park. **Changed traffic conditions** from vehicle movements and machinery.

How will the impacts be managed?

- Where possible we will limit reverse beeping noise from tankers.
- Crews will endeavour to complete high noise activities as early as possible each night (subject to weather and site conditions).
- Traffic control will be in place to manage traffic flow and maintain local access.
- We will monitor odour impacts.
- We will keep you updated as the works progress through letterbox drops.

There will be no interruption to your sewer services.

Thank you for your patience while we carry out these essential works. For more information, contact **Downer WSP** on **0427 252 379** or scan the QR code to be taken to the project webpage.
