

Construction update

Lindsay Street, Hawthorne

March 2021

Construction activities have begun with temporary fencing installed around the project work area within Hawthorne Park. As work continues within the park, construction activities will start on Lindsay Street.

Night works: Monday 22 March from 7pm to 5am

- Lindsay Street will be reduced to one lane with traffic controllers in place
- road barriers will be put in place and filled from a water truck with hoarding placed on top of the barriers.

From Tuesday 23 March

- potholing and service identification using vacuum excavation
- excavation works to build a new access chamber where the micro-bore under Hawthorne Road will exit
- a jackhammer and saw cutter will be used.

From Tuesday 6 April

- about 50 metres of trenching will be carried out
- driveway access will be limited during trenching works, residents will be contacted before these works take place.

What to expect

During construction, you may notice some changes around your local area such as:

- increased levels of localised noise and dust from the use of machinery and equipment
- increased construction vehicle movements on local streets
- delivery of plant, materials, and equipment
- Lindsay Street may have intermittent traffic closures. Traffic controllers will be in place to direct traffic when required.

Every effort will be made to keep disruption to a minimum for residents and businesses near the project sites.

We appreciate your patience during these important works and will continue to update you as work progresses.

Construction work hours

Work hours are expected to be from **6.30am to 6.30pm Monday to Friday**. Our workforce will arrive onsite earlier to prepare for the day's activities; however, no machinery will be operating before 6.30am.

Works are subject to weather and site conditions.
