

# SEWER WORK IN YOUR AREA

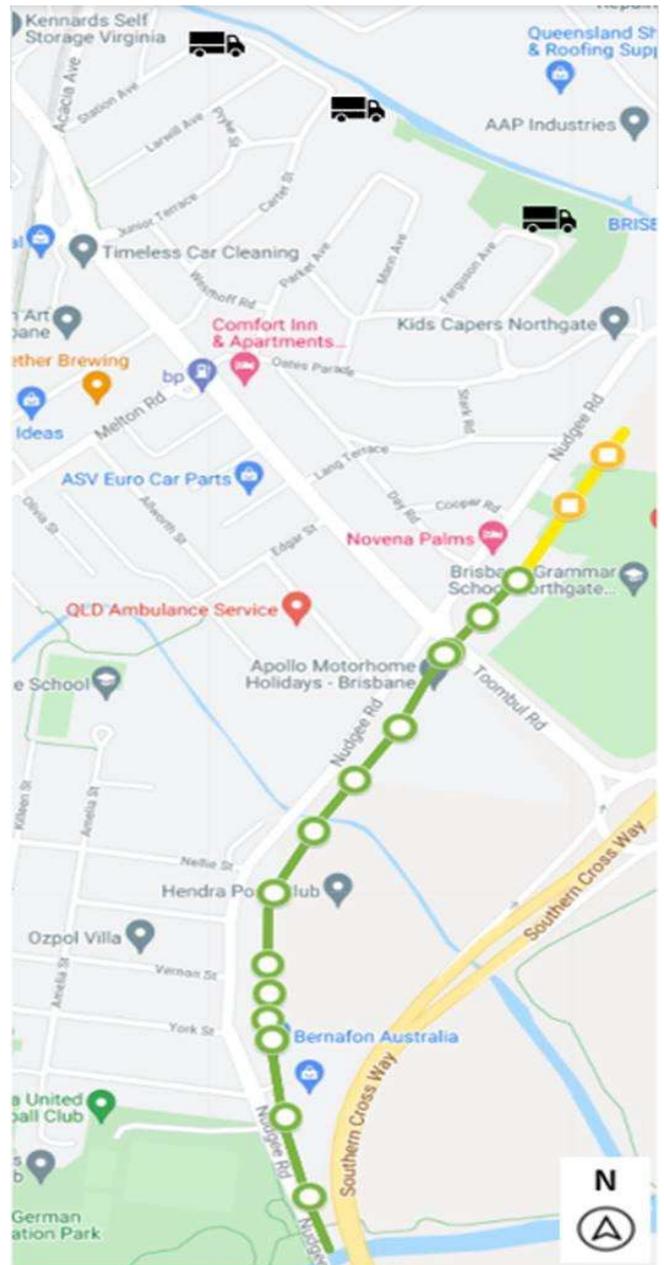

July 2021

## What's been happening?

Our delivery partner, **Downer WSP**, and their contractors, Interflow, have been working to upgrade a nearby sewer pipe adjacent to **Nudgee Road, Northgate**. The Nudgee Road Sewer Upgrade will future proof the pipes' reliability and ensure long-term service delivery to the community for the next 50 years. This project is progressing well, and we expect to be finished by late-September 2021, subject to weather and site conditions.

## What's next?

From **Sunday 11 July 2021**, Interflow will commence temporary works along **Station Avenue, Carter Street and Paterson Parade, Northgate**, to monitor the sewage flow in the network. These works will allow for the sewer upgrade to be completed safely downstream. Flow monitoring will be completed intermittently, on a trial basis and take up to three weeks to complete. There will be no interruption to your sewer services as part of this project and we'll keep you updated about future works, following the outcome of the trial.

Maintenance Holes and Pipe Alignment: 

Flow control monitoring locations: 

## What to expect?

**Work hours** - most of the work will take place at night, between **7pm and 5am**, Sunday to Thursday. This work has been scheduled after hours due to low sewage flow conditions at night.

**Construction impacts** - there will be construction related noise which will include the use of vehicles and machinery. Safety barriers and site signage will be installed around work areas to keep everyone safe.

**Intermittent odour** - may occur when sewer maintenance hole lids are removed or during ventilation activities. This is required to ensure the safety of crews working in confined spaces. Our crews will monitor odour levels and use deodorising pumps when undertaking these works.

## Cannery Creek Update

Urban Utilities, Brisbane City Council and the Department of Environment and Science continue to work collaboratively to investigate the source of intermittent odours experienced in the vicinity of Cannery Creek. This ongoing investigation is independent of the normal maintenance activities that are underway in Northgate, along Nudgee Road.

## How will impacts be managed?

Downer WSP are committed to minimising the construction impacts where possible during project delivery. We will keep directly impacted neighbours informed by providing regular construction updates during the project.

**Thank you for your patience while we complete these essential works.**
