

Nudgee Road Sewer Upgrade

March 2021

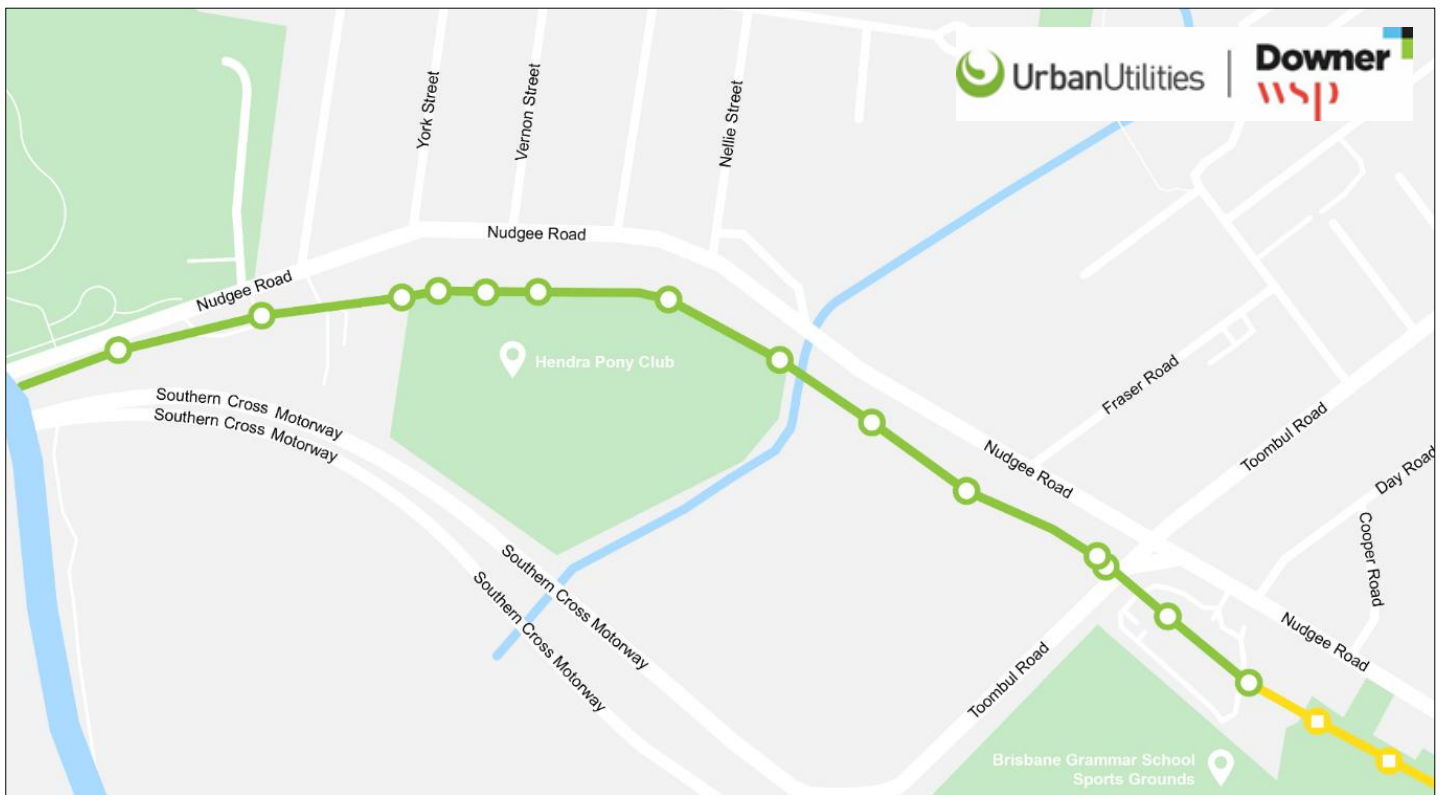

WE'RE UPGRADING YOUR SEWER NETWORK

You can rely on us to keep things flowing, and from time-to-time we need to upgrade your local wastewater network.

About the project

Over the coming weeks, the sewer pipe near Nudgee Road will undergo an upgrade to extend its service life by up to 50 years.

Our delivery partner, Downer WSP, will use an innovative trenchless methodology to inspect, clean and reline the pipe. This eliminates the need to dig up and replace the pipe.

LEGEND

Works taking place at sewer maintenance holes over several visits:

-  Sewer maintenance holes
-  Sewer pipe

Works taking place at sewer maintenance holes for the project duration:

Project benefits

The Nudgee Road Sewer Upgrade will:

- extend the pipe's service life by 50 years
- cater for local growth and development
- reduce the likelihood of sewage overflows
- improve the protection of the local environment including creeks and waterways in the network catchment
- ensure reliable and sustainable sewerage services to North Brisbane.

Project delivery

Sewer rehabilitation works will commence from **mid-March 2021**. The works will be completed in stages and take approximately eight weeks to complete, subject to weather and site conditions. We will keep you updated as the works progress.

Work hours

The works will mostly take place at night, between **7pm and 5am, Sunday to Thursday**. The work has been scheduled after hours to comply with approved traffic permits and due to low sewage flow conditions at night.

Sewerage Services

There will be **no interruption** to your sewerage services during these works.

Work locations

Works will take place at sewer maintenance holes adjacent to Nudgee Road, Northgate, located in:

- commercial property
- local and state-controlled roads
- parklands, bushlands and creeks.

Nearby residents and business will be kept informed of upcoming works and any property access requirements in advance of works starting.

Our commitment

The project team will minimise the construction impacts to the extent possible and crews will endeavor to complete high noise activities as early as possible each night.

We will keep directly impacted neighbours informed by providing regular construction updates during the project.

To find out more

To find out more about the project you can:

- **Phone** Georgina Hilder on 0429 667 398
- **Email** or register for project updates
