

# WHITEHEAD STREET RESERVOIR UPGRADE – PROJECT UPDATE

Downer WSP and their subcontractors, will soon return to site to continue working on the **water reservoir upgrade project at Whitehead Street, Eastern Heights.**

## What's been happening?

Following on from works that occurred in late 2021, our team are now preparing for the next stage of work to continue for the reservoir upgrade project.

The next stage of construction will now commence from **mid-February 2022** and will take up to five months to complete.

Project work hours will be during the day, between **6:30am and 6:30pm, Monday to Friday.** There may also be occasional work on Saturdays if required, during the project. We will notify the community in advance if Saturday works are planned.

*(project duration will be dependent on weather, site conditions and covid-19 developments).*

## What's next?

- **Site establishment and set up of equipment,** including a temporary site office / compound area within the reservoir site.

## What to expect?

- **Noise, dust and minor vibrations** from vehicle movements and construction equipment. We'll minimise this where we can.
- **Changed traffic conditions** as crews and machinery enter the reservoir site. Traffic

control will be in place during project work hours, as required to look after pedestrians, road users and to maintain local access.

- **Safety** – barriers and signage will be in place to keep everyone safe.

## Our commitment:

- We are committed to minimising the construction impacts where possible and to review work methods, as required.
- We will keep directly impacted neighbours informed by providing regular updates in your letterboxes as the project progresses.
- You can also **subscribe to receive project updates** via email – please send your name, address, phone number and email address to **Community.Enquiries@downergroup.com**

## For more information:

- **Phone** Rosie Quinn on **0438 269 952** or after hours on **1300 992 605**
