

WHITEHEAD STREET RESERVOIR UPGRADE – PROJECT UPDATE

Downer WSP and their subcontractors, will soon commence works to **upgrade the water reservoir at Whitehead Street, Eastern Heights.**

What's been happening?

Construction was expected to commence from **late July 2021**. Due to recent site conditions, including restrictions in place as a result of COVID-19, the project has unfortunately been delayed.

Works will now take place in two stages. This will ensure that the reservoir is online and operational during the peak summer period. Construction will occur between:

- **Stage one: early October 2021 to mid-November 2021**
- **Stage two: March 2022 to July 2022**

Project work hours will be during the day, between 6:30am and 6:30pm, Monday to Friday (weather and site conditions permitting).

What's next?

- **Site establishment and set up of equipment** will continue throughout October 2021. Preliminary condition assessments of the reservoir will take place during this time.
- **Some trees have been identified for pruning and removal at the worksite.** These activities will continue over the coming weeks.
- Crews will demobilise from site in **November 2021** and return from **March 2022**.
- We will keep directly impacted neighbours informed as the project progresses and will notify the community before construction recommences next year.

What to expect?

- **Some noise and dust** from vehicle movements, tree removal activities and construction equipment. We'll minimise this where we can.
- **Changed traffic conditions** as crews and machinery enter the reservoir site. Traffic control will be in place during project work hours, as required and to ensure local access is maintained.
- **Safety** – barriers and signage will be in place to keep everyone safe.

Our commitment:

- We are committed to minimising the construction impacts where possible and will provide regular updates in your letterboxes.
- You can also **subscribe to receive project updates** via email – please send your name, address, phone number and email address to **Community.Enquiries@downergroup.com**
